TAKE THE AQUARIUM SELFIE CHALLENGE:
See how many of our residents you can find and get to pose for a picture

☐ A colorless amphibian

☐ A fish with a red belly and an undeserved reputation

☐ A fish older than dinosaurs - it can “walk” in low water

☐ A reptile that might snap chat you back

☐ A fish that is the only cichlid native to the US

☐ A fish that will shock you

☐ An air breathing fish who can live out of water burrowed in mud

☐ A “giant” from South East Asia

☐ A fish who lets shrimp clean its teeth

☐ A fish who, when they get old, develop a dual set of teeth

☐ A “crazy” fish who travels in pairs and could use some oil

☐ A fish who has plates instead of scales

☐ A reptile whose tongue can be longer than its body

☐ A fish who is a real “stinger”
